

Physician Associate Re-certification Revision Programme 06-08 July 2017

- Are you preparing for the **PA National Recertification Exam**, which will occur in **September 2017**?
- Have you taken a specialty post and are concerned about losing your general medical knowledge?

St George's, University of London is pleased to offer its annual 3-day revision course, which will focus on common and serious conditions, based on the CCF matrix. **Seventeen hours of revision (* Type 1 CPD) are planned.**

Pre- and post-tests are available, with feedback provided by topic. 200 SBA questions will be offered in total.

THU 06 Jul 2017	10:00 – 12:00	Pre-test (100 SBAs)
	13:00 – 18:00	Lectures
FRI 07 Jul 2017	09:00 – 13:00	Lectures
	14:00 – 18:00	Lectures
SAT 08 Jul 2017	09:00 – 13:00	Lectures
	14:00 – 16:00	Post-test (100 SBAs)
	16:00 – 16:30	Evaluation/certificates*

* Please note that we are applying for Type 1 CPD through the FPA.

Previous Feedback

- *This is one of the best courses I have ever attended well worth the time and money! Thank you*
- *Your Pro PA attitude shines, makes us feel special, wanted, that you are on our side (not out to stump us) a very helpful attitude.*
- *Well organised*
- *Good “pearls”*
- *All lectures very well done, comprehensive provide a framework for revision.*
- *Got to the point*
- *Excellent, in that was focussed on how to pass the exam*
- *Lecturers approachable and happy to answer questions.*
- *Handouts – great to have provided, particularly having more detailed slides to look over in own time.*
- *Fantastic range of topics well presented.*
- *Good tips for linking to exam questions. (but also learnt stuff for real world medicine – or refreshed)*
- *Excellent teaching, enthusiasm evident*
- *Fantastic commitment from organisers*
- *Great overview and very comprehensive in the time available.*
- *Recommended refresher for re-qualification*
- *Crash course of important topics*
- *A concentrated course, focusing on the aspects we need to pass the exam. (I hope!) Good use of time and resources. Covered every system.*
- *Supportive and encouraging presenters who treated us like adults.*
- *Useful to have competency framework refresher given to use and list of “normal” blood results.*
- *Lecture notes – excellent!*
- *Comprehensive (but tough!)*
- *Varying methods of teaching addressing different learning needs and styles*
